OF THE

K31(h)

BOMBAY PRESIDENCY.

VOLUME VI-B.

REWA KANTHA, CAMBAY AND SURAT AGENCY.

UNDER GOVERNMENT ORDERS.

BOMBAY
PRINTED AT THE GOVERNMENT CENTRAL PRESS
1914

PREFACE.

Volume VI of the Bombay Gazetteer was issued in 1880. In 1904 Volume VI-B, which consisted of a collection of tables with introductory notes, was issued with a view to supplementing the parent volume with more recent statistics. The present volume contains information up to the year 1911.

A. M. GREEN.

Bombay, March 1914.

REWA KA'NTHA.

REWA KA'NTHA.

Area.—The area is approximately 4,946 square miles. The greater part of the Agency has been surveyed, but in some of the hilly tracts the work has not been done in detail.

Survey.—The operations of survey and settlement, more or less on the lines of those applying to the British Districts of Gujarát, have been introduced in the States comprised in this Agency as under :—

Ra'jpipla.—The Rájpipla State is divided into two broad and natural divisions known as *Rasti* and *Rani*. The whole of the former division was brought under survey settlement similar to the settlements in force in the neighbouring British Districts of Gujarát between the years 1889-90 and 1894-95. The settlements were guaranteed for periods of fifteen years. But revision settlement operations were delayed in the earlier settled tálukas for some time after the expiry of that period, in order to permit the effects of the famine of 1899-1900 and the "rat famine" of 1901-02 to pass away completely before the commencement of the said operations. They were begun in the year 1908-09, and revised survey settlements have been introduced into three of the five tálukas which had come under the original survey settlement. The same will shortly be introduced into the remaining two tálukas.

The *Rani* tract is managed under the plough tax system. But the reclamation of areas from the tract, *i. e.,* the conversion of a *Rani* village into a *Rasti* one, as soon as it becomes ripe for the change, is an object constantly kept in view. Some 68 *Rani* villages in the Jhagadia and Valia Tálukas have been marked out for this change ; and measuring and classifying operations were duly completed in them some time before the famine of 1899-1900. The actual introduction of a regular survey settlement into these villages had however to be postponed on account of the big famine. These villages were brought under settlement in 1907-08 to the great advantage of the ryots and the State. It is hoped that some more villages of the *Rani* group will shortly come in for similar treatment.

The total area of every one of the *Rani* villages not brought under the survey settlement has been ascertained by means of a traverse survey ; and this permits of the area of the State by survey measurement being accurately determined.

2. **Chhota-Udepur**.—The Chhota-Udepur State is divided into five tálukas and the villages comprised therein are of two classes (1) *Rasti* or settled and (2) *Rani* or jungly. The lands in the whole of the Wasna-Karali and Jetpur Jabugam Tálukas have been measured and classified on the principles regulating such operations in the British Districts of Gujarát. Two tálukas remain to be surveyed and the work has already been begun.

3. **Ba'ria**.—Survey operations were commenced in 1894 ; but they were suspended from 1899 owing to famine and were recommenced in 1908 with a small establishment. Rájgad, Dudhia and

Haveli Mahãls have been surveyed and the rest (four mahãls) remain to be surveyed. The work is in progress and the establishment is being strengthened to expedite it and to provide for classification.

4. **Luna'wa'da.**—All the lands have been surveyed and assessed in the State. Ordinarily 60,000 acres or 72 per cent. of the culturable area is under cultivation. The average incidence of the land tax is about Rs. 1-7-10 per acre, the highest and lowest rates being about Rs. 4-4-0 and Re. 0-4-0 respectively.

5. **Ba'la'sinor.**—Survey and settlement operations were completed during the time of the late Nawáb except in some Inám and Udhad Jamábandi villages. There has been no revision settlement. The total cultivable land in the State is 59,629 acres out of which 42,889 acres are under cultivation and 16,740 acres are still waste. The average incidence of the land revenue assessment in the State comes to Rs. 1-13-8 per acre which shows that the tax does not press heavily on the farmers.

6. **Sunth.**—Survey operations were renewed in 1910 and 68 villages have been surveyed and 5 classified. The operations are going on under an experienced survey officer with a trained staff.

7. **Kada'na.**—When the State was under administration survey operations were undertaken in 1895. But they had to be abandoned owing to famine in 1901. On the re-establishment of normal conditions operations were re-commenced in 1907 and are still in progress. Twenty-three villages have been surveyed and classified; and the intention is to finish the remaining 83 villages in due course. The culturable area amounts to 47,000 acres and 66 per cent. of it forms the annual tilth of the State. The average incidence of the land assessment comes to Rs. 1-2-0 per acre. The highest and lowest rates for Kyári and Jiráyat lands are Rs. 6-0-0 and Re. 0-2-0 per acre.

8. In the petty States and Mewási Thána Circles survey operations have been introduced since 1896. Survey work in Bhádarwa and Umetha was completed in 1898. In the remaining States and Thána Circles the survey work had been suspended on account of famine. In the Sankheda Mewás 13 out of 26 Estates levy land revenue according to survey settlements, while in the Pándu Mewás 5 out of 24 Estates have introduced survey settlements. In 1910-11 the revenue demand amounted to Rs. 1,98,767 in the Sankheda and Rs. 63,809 in the Pándu Mewás.

Trade and Manufacture.—The principal articles of export are timber, firewood, timru leaves (for country cigarettes), mhowra fruits and flowers, and other forest produce as well as cotton, maize, sesamum, bájri, etc. Almost all the larger States contain tracts of forest. Formerly these were not of importance but by the opening up of Railways, *i. e.*, the Godhra-Ratlám and Rájpipla State Railways, forest produce and timber have gained considerable importance and value. All the States have framed rules for the conservancy and preservation of their forests and all derive fair amounts of revenue from their forests. The completion and opening of new railways, *i. e.*, the Bodeli-Chhota-Udepur, Godbra-Lunáwáda (with the possibility of extension to Sunth and Jhálod), will bring the forests of Chhota-

Udepur, Lunáwáda, Sunth, Kadána and Sanjeli within easy reach of outside markets. Cornelian stones are exported from Rájpipla; and grain and oil-seeds from almost all the States. The mining and export of manganese ore is carried on in Chhota-Udepur and Jambughoda and the surrounding tracts are on the eve of being developed in the same way. The principal manganese mine is at Pani in Chhota-Udepur. Rájpipla possesses five ginning factories; Chhota-Udepur a ginning factory and a small factory for the manufacture of molasses from toddy. Three ginning factories are working in Bária, and one is to be opened shortly in Bálásinor. The first and second class States have each a distillery worked by steam. Piece-goods, salt, sugar, metals and groceries form the principal imports. Country soap continues to be exported from Lunáwáda and Bálásinor. The dyeing and printing of quilts, *jajams*, etc., are practised in Bhádarwa, Umetha and other towns, but the industry is disappearing as the workers are attracted to large centres. Cotton cultivation has received a great impetus by the recent rise in prices.

Important Public Works.—The following is the list of important works constructed since 1875 in the States of this Agency:—

	Total expenditure Rs.
Rájpipla—	
1 Rájpipla State Railway	15,59,892
2 Karjan Training works	84,000
3 Nándod town and Suburban roads	52,967
4 Nándod-Ankleswar Road	2,77,145
5 Nándod-Poicha Road	89,582
6 Two Dediápáda Roads	1,02,247
7 Nándod Civil Hospital	45,178
8 Nándod High School	15,783
9 Vernacular school at Nándod	11,154
10 Jail at Nándod with Jailor and warders line ...	85,033
11 Police lines and Stations at Nándod	29,432
12 Infantry lines at Nándod	31,895
13 Huzúr Office at Nándod	58,242
14 Victoria Diamond Jubilee Gateway	27,074
15 Hassadi Matas temple and Tank	2,27,714
16 Chhatra Villás Palace	1,80,628
17 Nándod Water Works	1,54,156
Chhota-Udepur—	
1 Moti Villas Palace	1,37,951
2 Police lines	35,000
3 Brown Water Works	61,685
4 Steele Hospital	14,883
5 Guest House	22,612
6 Darbár Hall	29,625

The Rájpipla State Railway is a narrow gauge 2′-6″ line and is 37½ miles long reaching from Ankleswar to Nándod. The whole line was constructed at State expense and cost over 13 lákhs: the total capital outlay on the line up to date has been Rs. 15,59,892. It was completely opened to traffic in 1899. The A′nand-Godhra line was extended to Ratlám passing through a length of 20½ miles of Bária territory. Sewália Station on it is at a distance of 10 miles from Bálásinor. The Gaikwar's Dabhoi-Chándod Railway passes through a portion of the Sankheda Mewás and the Dabhoi-Bodeli line lies at a distance of from 3 to 7 miles from Jambughoda State. A light Railway from Godhra to Lunáwáda is approaching completion and will shortly be opened to traffic. It was constructed by the Gujarát Light Railways Company with Messrs. Killick, Nixon & Co. as Agents. This line may extend in future to Sunth and Jhálod. A narrow gauge 2′-6″ Railway is shortly to be constructed from Bodeli to Chhota-Udepur; and the Chámpáner-Shivrájpur Light Railway is to be extended to Pani Mines in the Chhota-Udepur and will pass through a small portion of the Bária State.

Famine.—The whole Agency suffered severely from famine during the years 1899—02. Famine relief measures were undertaken in November 1899, and were closed in October 1902. The highest daily average number on relief was nearly 40,000 in April 1900 It fell to 311 in October 1901 and again rose to 12,000 in May 1902. Over 6 lákhs of rupees were spent on relief during 1899-1900. The famine loans borrowed by the States from Government amounted to Rs. 4,08,000, of which Rs. 2,25,000 were borrowed by the Rájpipla State. The States of this Agency except Rájpipla, Chhota-Udepur and Sankheda Mewás were again visited by famine of a much less severe type in 1911-12 and 1912-13. They were virtually fodder famines. Loans were advanced to the extent of Rs. 1,54,137. Out of this Sunth borrowed Rs. 1,00,000 and Bhádarwa Rs. 5,000, while the remaining amount was borrowed by petty States in the Pándu Mewás. The famine administration and direct famine expenditure in the non-jurisdictional estates in the Pándu Mewás was undertaken by Government; while the jurisdictional States managed their own relief operations. No regular famine was declared in the Pándu Mewás and so the works were all test works. Relief operations were opened in the affected States in November or December 1911 and practically closed in July 1912. The highest average daily numbers on relief were as under :—

State.	Month.	Highest average number of daily attendance.
Bária ...	February 1912.	3,045·2
Lunáwáda ...	March 1912 ...	211·11
Sunth ...	July 1912 ...	460·5
Pándu Mewás ...	April 1912 ..	1,358

About 75 thousand rupees were expended in relief operations.

Plague.—Plague first appeared in Chándod in March 1898. It then spread to Chhota-Udepur, Sankheda Mewás and Pándu Mewás. In the third year it attacked Bálásinor and in the fifth year Rájpipla and Bária were attacked. In July 1911 Chhota-Udepur was again attacked and the disease lingered on in Tejghad, Jetpur and Jabugam villages. In 1904 Kadána and Sunth were visited by it and the latter suffered from it again in 1911. Kadána lost 11 souls out of 15 attacks, while Chhota-Udepur and Sunth lost 134 and 138 (106 in 1904 and 32 in 1911) persons respectively. Anti-plague inoculation was performed in Chhota-Udepur on 464 persons out of whom only one was attacked and died. Bária lost 206 people and Rájpipla 188 during 1901-02. Of the 387 deaths during the latter part of 1902, 245 occurred in the town of Nándod. In all 3,131 souls appear to have been carried off by the epidemic up to 1911. Lunáwáda was attacked in 1903-04 and 1906-07, the death roll in these years in the State being 584 and 55 respectively.

Year.		Attacks.	Deaths.
1897-98	...	61	52
1898-99	...	199	140
1899-00	...	121	111
1901-02	...	921	543
1902-03	...	830	473
1903-04	...	2,334	1,461
1904-05	...	121	110
1906-07	...	112	55
1911-12	...	175	166

The other States have practically been free from the scourge. People have begun to learn the importance of evacuation and other precautionary measures.

CAMBAY.

CAMBAY.

Area and Population.—Cambay, paying a tribute of Rs. 21,924 annually to the Bombay Government, has an area of 350 square miles containing 88 villages with 19,728 houses and a population as under :—

	Males.	Females.	Persons.
1891 ...	46,231	43,491	89,722
1901 ...	38,616	36,609	75,225
1911 ...	37,675	34,981	72,656

Of the total population of 72,656 souls or 207 persons to the square mile, 59,568 or 82 per cent. are Hindus, 9,715 or 13 per cent. are Musalmáns, 3,056 or 4 per cent. Jains, 195 or ·27 per cent. Christians and 122 or ·17 per cent. Pársis. Of the total population, 32,416 persons reside in two towns and the remainder in rural areas :—

Details of Urban Population.

Towns.	Total.			Males.			Females.		
	1891.	1901.	1911.	1891.	1901.	1911.	1891.	1901.	1911.
Cambay ...	31,390	31,780	28,134	15,273	15,654	13,888	16,117	16,126	14,246
Tárápur ...	5,957	4,438	4,282	3,316	2,456	2,405	2,641	1,982	1,877

The principal castes numbering more than 5,000 among the population are as follows :—

Castes.	Persons.	Males.	Females.
Koli (Hindu) ...	13,593	7,301	6,292
Kunbi " ...	10,854	5,855	4,999
Rájput " ...	6,108	3,123	2,985

Over 30,000 including 19,000 dependants are supported by agriculture, 20,000 by industries, 9,000 by general labour.

Land Revenue and Agriculture.—Of the 89 villages, 5 are *inámi*, or alienated, 6 are held on *jivai* or life tenure, and 78 are *khálsa* villages.

The survey settlement first introduced in 1893, replacing the old *bhágwáti* system was guaranteed for 15 years, and on the expiry of that period was guaranteed for a further 15 years. The land revenue realised in 1911 was Rs. 3,03,741. The survey rates of assessments are given below :—

	Maximum rates per acre.				
	Rs.	a.	p.		Rs.
Dry land ...	3	3	2	to	6
Rice water rate ...	3	3	0	to	4
Bhatta rate ...	6	6	0		

Garden rates are merged in the dry crop rates in the shape of sub-soil water assessment. Of the total area of 207,189 acres, 59,698 acres are unarable land, and 147,491 arable land; of the latter 82,916 acres of land were brought under actual cultivation in 1910-11, the remainder being fallow (3,558) and culturable waste (61,017). The principal crops are wheat 25,615, bájri 16,384, jowári 19,682, rice 92, kodra 6,116, tobacco 896, cotton 11,939 and til and others 2,192 acres.

Besides some channels and the Alang Canal there are 1,141 wells and 36 tanks for irrigation purposes, irrigating 1,507 acres (1910-11).

Unskilled labourers are paid at 4 annas to 6 annas a day and skilled artisans from 12 annas to one rupee a day.

Trade and Manufacture.—The value of the annual sea-borne trade of Cambay Port is Rs. 7,56,901 (1910-11) carried in 625 ships. The imports consist of jagri, sugar, cocoanuts, food-grains, and timber, and exports of tobacco and food-grains. The Nawab of Cambay Spinning and Weaving Mill first began to work in March 1910. It contains 12,624 spindles and turned out 3,049 bales or 1,219,600 lbs. of yarn, giving daily employment to 464 men (1911). There are three ginning factories in the towns of Cambay and Tárápur, which turned out 4,969 bales clean cotton. There are 2,414 hand-looms supporting 4,173 persons, while the trade in agate and cornelians gave employment to 1,120 persons.

Important Public Works.—The chief works constructed since 1875 are as under :—

1. Tárápur-Cambay Railway.
2. Road from Cambay to Petlád.
3. Do. to Golana.
4. Do. to Kanawada.
5. Road from Indraj to Tárápur.
6. Kennedy Hospital, Victoria Diamond Jubilee Female Hospital and Tárápur Dispensary.
7. Cambay High School and 19 other schools.
8. Diván's Court and Court Houses.
9. Over 1,000 irrigation wells and tanks, as well as repairs to the Alang Canal.

10. The extension of the Tárápur-Cambay Railway to the River Channel.

11. The wharf at the Bunder Head.

12. Post and Telegraph office building.

13. Octroi Duty Office.

14. Dâck-Bungalow and Dharmashála.

15. Godowns opposite Railway.

16. Gujaráti Main School Building.

The annual total amounts expended on public work during the last ten years were :—

Years.	Met from		Total.
	State Funds.	Local Funds.	
	Rs.	Rs.	Rs.
1901-02 ...	19,013	3,974	22,987
1902-03 ...	27,862	6,366	34,228
1903-04 ...	18,449	4,627	23,076
1904-05 ...	35,427	12,219	47,646
1905-06 ...	17,792	8,157	25,949
1906-07 ...	20,420	10,504	30,924
1907-08 ...	47,230	9,317	56,547
1908-09 ...	30,186	11,966	42,152
1909-10 ...	54,865	14,917	69,782
1910-11 ...	43,885	7,699	51,584

Ta'ra'pur.—In 1911 the Tárápur-Cambay Railway was extended from Cambay to the Bunder Siding Station, a distance of 1·50 miles, at a cost of Rs. 1,82,094 including the wharf. The total gross earnings of the Tárápur-Cambay Railway in 1910-11 were Rs. 51,709, the net earnings being Rs. 23,342.

Famine.—In 1899-1900 the State suffered severely from famine. Relief measures commenced in October 1899 and were closed in July 1900, though no persons were gratuitously relieved till the end of January 1900. The highest number of persons on relief-works was 3,174 in February, and of persons gratuitously relieved, 1,158. The latter increased to 1,948 in June. Over Rs. 80,000 were spent during the period on famine relief, of which Rs. 48,371 were devoted to works and Rs. 32,432 to gratuitous relief.

Plague.—The first case of plague appeared in the State in 1902, and the mortality from the disease has been 2,942 up to the end of May 1911.

General.—The army consists of 214 all told, including 19 officers. The cost of this force in 1910-11 was Rs. 20,121. The police numbered 170, and cost Rs. 22,446. The daily average of convicts in the jail was 36·5 (1910-11). The total cost of the jail was Rs. 2,645 and its receipts Rs. 1,024. Cambay is the only Municipal Town in the State, the income and expenditure of which for 1910-11 were Rs. 13,991 and Rs. 17,617 respectively. A local fund cess is charged at the rate of half an anna per rupee on all land assessment. The revenue from this source in 1910-11 amounted to Rs. 13,391.

The ten years' receipts of these funds are given below :—

Year.		Municipal Fund.	Local Fund.
		Rs.	Rs.
1901-02	...	8,572	14,419
1902-03	...	6,899	14,460

DHARAMPUR.

DHARAMPUR.

Area and Population.—Dharampur State, paying Rs. 9,000 annually to the British Government in lieu of *chauth jakát* formerly levied by Government in the State's territory, has an area of 704 square miles according to the measurements of the survey.

The population residing in 21,812 houses returned at the Census of 1911 compares with that of the previous Census as under:—

	Males.	Females.	Persons.
1901 ...	51,467	48,963	100,430
1911 ...	58,589	56,406	114,995

Details of the urban population in the town of Dharampur are:—

	Males.	Females.	Persons.
1901 ...	3,118	3,226	6,344
1911 ...	2,065	2,213	4,278

Agriculture and Land Revenue.—The survey, commenced in 1885, was completed in the year 1903-04. The area of the villages surveyed comes to 449,756 acres. The assessment rates have continued to be the same as before except in a few cases where they have been lowered a little with a view to facilitating the disposal of waste land. The rates of assessment are:—

		Rs. a. p.		Rs. a. p.
Dry land	per bigha ...	0 6 0	to	0 14 0
Rice land	" ...	1 8 0	to	8 0 0
Land fit for sugar plantation.	" ...	1 8 0	to	2 0 0

The revenue has steadily increased since the introduction of the survey from Rs. 1,14,172 to Rs. 2,37,996. Of the total area of 370,741 acres (1910-11), 131,358 acres are under cultivation, 13,806 acres are waste and 101,321 on *kharába*. The details by tálukas of the area cultivated and irrigated as well as the revenue from land are shown in Table I.

Forests.—Up to the end of the year 1910-11, 81,341 acres of forest had been reserved. The area of forests brought under protection was 60,355 acres. The revenue realized chiefly by the sale of timber and bamboos amounted to Rs. 1,92,633.

Trade.—There is very little scope for trade in the State. The only articles exported are different kinds of grain, leaves for *bidis* and mhowra fruit.

Important Public Works.—The chief works constructed since 1875 are :—

1. Dharampur-Bulsár road.
2. Dharampur-Násik road.
3. Dharampur-Avdha road.
4. Dharampur-Motapondha road.
5. Dharampur-Mandva road.
6. Dharampur-Arnai road.
7. Dharampur Jubilee Dispensary.
8. Moor Leper Asylum.
9. The Huzúr Office.
10. The Dewan's Office.

The following amounts were spent on public works during the last ten years :—

Years.	Rs.
1901-02	11,379
1902-03	45,210
1903-04	11,676
1904-05	12,881
1905-06	7,992
1906-07	11,059
1907-08	10,135
1908-09	25,862
1909-10	31,867
1910-11	28,427

Famine and Plague.—In 1899-1900 the State suffered from famine. Relief measures were commenced in April and were closed in December. The highest daily average of persons on relief was over 5,000 in April and May. The State spent over Rs. 67,000 in the year on famine relief. Cholera broke out among labourers employed on relief works. Nearly 800 deaths from this cause were recorded during the year. Plague first appeared in the town of Dharampur in August 1898 and continued till October of the same year, though not in severe form. It again appeared in 1904-05, 1906-07 and 1907-08 causing over 200 deaths.

General.—The State has no army. The police number 140 and the expenditure thereon is Rs. 24,963. In addition to the regular force there are 102 Huzúr palace guards and 31 Arabs who guard the Durbár and Huzúr treasury. There is a jail at Dharampur with a daily average of 16 prisoners, costing Rs. 2,449 per annum. The only Municipality is Dharampur. The State bears all expenditure in connection therewith. The annual charges amount to Rs. 7,750. The State contains three distilleries from which liquor is supplied to licensed vendors. During the year 1910-11, 179,338 gallons of 25° U. P. and 351,549 gallons of 60° U. P. liquor were sold. Liquor is

annum to the State for the A'bkári farm. The opium farm is sold every year by auction and the sum realized in 1910-11 was Rs. 80. The quantity consumed is very small as there are not many opium eaters. Both the contracts are regulated on the British system. *Chauth jakāt, i.e.*, a tax on the model of the *chauth*, is levied in the State. The receipts therefrom during 1910-11 were Rs. 7,750. There is one dispensary in the State. The number of patients treated during 10 years and the expenditure incurred thereon is shown below:—

Years.	In-door.	Out-door.	Expenditure.
			Rs.
1901-02 ...	83	11,600	7,584
1902-03 ...	84	9,789	1,892
1903-04 ...	121	11,268	10,789
1904-05 ...	57	1,086	7,170
1905-06 ...	72	10,857	6,537
1906-07 ...	74	10,516	6,848
1907-08 ...	64	8,489	7,046
1908-09 ...	55	10,193	10,866
1909-10 ...	32	10,533	10,569
1910-11 ...	6	7,711	13,087

A travelling Hospital Assistant visits the villages and treats about 500 patients yearly. There is also a leper asylum with (1910-11) 37 inmates. The annual expenditure on this asylum is over Rs. 1,000 per annum.

BA'NSDA.

BA'NSDA.

Area and Population.—The State pays an annual tribute of Rs. 153. The area of 240 square miles estimated before the introduction of the survey has been reduced to 215 square miles to accord with the measurements of the survey completed in 1883-84. The population residing in 87 villages containing 9,113 houses returned at the Census of 1911 compares with that of the previous Census as under :—

Year.	Males.	Females.	Persons.
1901 ...	20,821	19,561	40,382
1911 ...	22,762	21,832	44,594

The urban population residing in the town of Bánsda is as follows :—

Year.	Males.	Females.	Persons.
1901 ...	1,921	1,839	3,760
1911 ...	1,747	1,797	3,544

Agriculture and Land Revenue.—Since the introduction of the survey operations, which were completed in 1883-84, the lands have been classed and systematically assessed. The rates have proved suitable, the collection of revenue having been made without resort to coercive measures. The total assessment of the land of the khálsa villages according to the survey settlement is Rs. 1,55,127. The rates in force are :—

	Rs. a. p.		Rs. a. p.
Dry land	0 5 0	to	4 6 0
Rice land	2 5 0	to	11 4 0

An extra charge is made by the State for every acre of land turned into bágáyat by cultivators. No revision has yet taken place. The land belonging to khálsa villages amounts to 123,928 acres, of which 47,699 acres are under forest land, 6,318 unarable and 69,911 arable land. Of the total area of cultivable land 69,911 acres in the State, 28,704 acres remained waste and 4,159 acres under fallow in 1910-11. The principal crops are rice, *nágli*, *jowári*, *kodra* and *tur*. A very limited area of land is under cotton and wheat cultivation. There are 18 tanks and 81 irrigation wells in

the State. Of these, many were constructed in the famine year 1900. A pumping engine has been bought by the State in order to utilise the water of the river Ambika for irrigation. Cultivation of sugarcane is encouraged by supplying water to the fields from the water works at Sindhai adjacent to the Ambika river. The cultivators mainly belong to the Káliparáj. In order to induce the cultivators to improve their holdings, tagávi advances are made to them by the State. The amounts advanced during ten years were as follows :—

Year.		Rs.
1901-02	...	11,213
1902-03	...	4,985
1903-04	...	3,199
1904-05	...	1,116
1905-06	...	3,498
1906-07	...	2,955
1907-08	...	6,089
1908-09	...	4,752
1909-10	...	1,219
1910-11	...	3,649

The whole area of forest has been defined and surveyed, and the system of conservancy is on the British model. 47,699 acres have been demarcated as reserved forest. Free grants of timber are made for building purposes and implements of husbandry. A revenue of Rs. 40,935 is derived from the forest, which contains teak, khair, sisam and bamboos.

Important Public Works.—The chief works constructed since 1875 are as follows :—

	Cost. Rs.	Year of completion.
1. Dams across the river Kaveri near garden of Raj-rajeswar Anahadev.	6,000	1879 & 99
2. Roads from Bánsda to Kathrot ...	1,25,000	1885
3. The Ratan Kunverba Hospital ...	10,000	1877

14. Tanks for Irrigation	32,000	1901
15 Wells (81) do.	41,000	1900

The annual total amounts expended on public works during ten years were as under :—

Years.		Rs.
1901-02	...	32,448
1902-03	...	18,169
1903-04	...	43,485
1904 05	...	19,176
1905-06	...	18,770
1906-07	...	20,140
1907-08	...	21,268
1908-09	...	25,511
1909-10	...	27,479
1910-11	...	40,324

Famine.—In 1899-1900 the State suffered severely from famine. Relief measures commenced in April and were closed in December. The highest daily average number of persons on relief works was nearly 5,000 in May and June. About Rs. 60,000 were spent by the State on famine relief. Besides, remissions of land revenue amounting to over Rs. 30,000 were granted, and about Rs. 60,000 were advanced to cultivators.

Plague.—No plague occurred until the year 1901-02, although the neighbouring villages of Surat District were infected from 1896-97. In September 1901 plague appeared. Six persons were attacked, of whom one recovered. Again it appeared in 1909-10 and caused 48 deaths.

General.—There is no regular military force in the State, but it maintains 35 Sowárs and a party of 34 Arabs who do duty as police and treasury guards. The police number 134 and cost Rs. 16,783 per annum. There is one municipal town, *viz.*, Bánsda; no municipal taxes are levied, the municipality being maintained by the State at an annual cost of Rs. 4,382. There is one jail in Bánsda town with a daily average of 5 prisoners maintained at an annual cost of nearly Rs. 280.

The A'bkári Department is managed on the model of the British A'bkári system, and there is a distillery at Bánsda to manufacture liquor. Opium is brought from the British Depôt, the cultivation of poppy having been prohibited by the State. Salt is brought into the State by petty merchants who buy from British salt depôts.

SACHI'N.

SACHI'N.

Area and Population.—The area was reduced from 65 to 42 square miles to accord with the measurements of the survey carried out between 1879 and 1883. The population at the Census of 1911, residing in 21 villages containing 4,682 houses, compares as follows with that of the previous census :—

	Males.	Females.	Total.
1901 ...	9,968	10,562	20,530
1911 ...	8,812	10,091	18,903

The decrease in population is largely due to plague.

Agriculture and Land Revenue.—The survey settlement was introduced in 1879 and completed in 1883. No revision has yet been made. The revenue was enhanced by Rs. 20,152 from Rs. 98,485 to Rs. 1,18,637. The rates in force are :—

		Rs. a p.		Rs. a. p.
Dry land per acre	...	1 12 0	to	12 0 0
Garden land do.	...	8 14 0	to	16 0 0
Rice land do.	...	7 0 0	to	17 4 0

The total cultivable area of the State in 1910-11 was 21,718 acres with an assessment of Rs. 1,48,873. The areas of unoccupied waste land and of salt land were 592 and 3,515 acres, respectively. There is no forest in the State. The principal crops are jowári, bájri and cotton. To stop the encroachment of the sea at Dumas and Bhimpore, protective works have several times been constructed, but generally without success. Tagávi advances made to the cultivators during recent years are :—

		Rs.
1901-02	...	3,095
1902-03	...	2,400
1903-04	...	1,325
1904-05	...	8,015
1905-06	...	6,325
1906-07	...	845
1907-08	...	2,317
1908-09	...	30
1909-10	...	25
1910-11	...	80

Trade and manufacture.—The chief articles of import are rice and wheat. The export consists of cotton, jowári and bájri. The important means of communication constructed since 1875 are

the Sachín-Lajpur road, Surat-Sachín road, Surat-Dumas road and the Tápti Valley Railway, but they have had little effect on the trade of the State. Good *khádi* cloth is made at Kotha by Zai weavers with hand looms.

Important Public Works.—The following important works have been constructed since the year 1875 :—

		Rs. Cost.	Year of completion.
1.	Surat-Sachín Road	94,000	1878
2.	Sachín-Lajpur Road	28,000	1881
3.	Gavir-Bhimpore "	16,000	1882
4.	Sachin-Kansad "	18,000	1882
5.	Vasan-Kotha "	23,000	1884
6.	Puna-Saroli "	14,000	1891
7.	Sachín and Dumas dispensaries...	18,000	1877 and 1882
8.	Jail at Sachín	3,000	1878
9.	Sowars' lines and Police Constables' rooms, etc.	18,328	1882
10.	Nawab's new Palace	22,000	1886
11.	Agency bungalow	5,000	1895
12.	Magob-Puna Road	4,041	1906
13.	Summer Palace at Dumas ...	10,133	1911

The annual amounts expended on public works during the last 10 years were as under :—

1901-02	40,295
1902-03	37,722
1903-04	29,666
1904-05	32,738
1905-06	51,822
1906-07	72,394
1907-08	65,427
1908-09	57,670
1909-10	45,840
1910-11	42,737

Famine.—Though the rainfall in the year 1899-1900 was practically confined to 10 days in June, the failure of crops was by no means total. Rice failed everywhere, but jowári and cotton amounted to at least a four-anna crop. The rainfall in the following two years was also scanty. But the scarcity during the years 1899-1900 (a famine period throughout Gujarát and the Presidency) never deepened into famine, and the opening of relief works was not therefore necessary.

Plague.—Plague first appeared in the State in 1896-97, and has since carried off about 1,700 persons. It was very severe in 1897-98, 1901-02 and in 1904-05.

General.—There is no military force in the State. The Police number (80—50 armed, 21 unarmed and 9 mounted) maintained at an annual cost of Rs. 15,275. There is a jail at Sachín with a daily average of 2 prisoners maintained at a cost of Rs. 120 per annum.

DA'NGS

Area and Population.—The Dángs, or hill lands, which were transferred from Khándesh Agency to the Surat Agency in 1902, cover the following sub-divisions :—

Name of State.	Area in square miles.	Villages.	Population.	Estimated gross revenue in rupees.
Gadhi	302	67	6,456	8,772
Amala	172	63	5,440	5,651
Derbhavti	172	37	3,796	5,539
Vasurna	172	68	6,610	4,619
Pimpri	100	33	2,888	4,996
Kirli	12	8	695	902
Shivbara	12	5	218	631
Chinchli Gadag	16	16	1,308	1,158
Avachar	6	7	616	374
Pimple Devi	4	1	154	165
Wadyaman	9	2	174	244
Palasvihir	8	2	70	153
Bilbari	2	1	65	98
Zarigarkhadi	9	3	855	45
Total ...	996	313	29,345	33,347

The population was enumerated in 313 villages containing 3,346 houses. It compares with that of the previous census as follows :—

	Males.	Females.	Persons.
1901 ...	9,652	8,981	18,633
1911 ...	15,552	13,793	29,345

The population is almost entirely Hindu.

Famine.—In 1899-1900 the States suffered severely from famine, and the subsequent two years were noted for a scarcity due to scanty rainfall. Special Famine Circle Inspectors were appointed for the distribution of village doles, and arrangements were made to give gratuitous relief to the blind, infirm, etc. Cheap grain shops were also opened. In 1900 cholera prevailed in epidemic form and carried off a large number of Bhils and Powars.

Vaccination has made satisfactory progress among the people. Eleven hundred and sixty-four children were vaccinated in 1910-11.

BOMBAY: PRINTED AT THE GOVERNMENT CENTRAL PRESS.
